DETAILED ACTION

Claims 12,13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As to claim 12, where is there support for this? Note that originally filed Figure 1 does show a device 29 for measuring a quantity of liquid 29 (i.e. weigh tank) installed between the flow meter 5/7 and drain 23/27; but that same meter 5/7 is not connected in either series or parallel with a calibration reference flow meter 21 as called for in base claim 9. There is no support for the combination of Claim 12.

As to claim 9, note was made of the "pure sterilized water" (line 3), the --a drain pipe connecting said flow meter **and** said calibration reference flow meter to said drain-- (last 4 lines, highlighting added), with remaining claim limitations. Adney et al teaches the use of pure sterilized water, but does not teach the claimed fluid connections of claim 9.

As to claim 15, note was made of the "pure sterilized water" (line 4), the -- directing all the water that has been sent through said flow meter **and** said calibrated reference flow meter to the drain—(last 3 lines, highlighting added), with remaining

claim limitations. Adney et al teaches the use of pure sterilized water, but does not teach the claimed fluid connections of claim 11.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
